

## Periodical schedule maintenance chart

| Service interval | Maintenance Requirement   | Clean        | Change       | Check        | Drain     | Adjust       | Grease       |
|------------------|---|--------------|--------------|--------------|-----------|--------------|--------------|
| Every 10 hours   | Engine oil  |              |              | $\checkmark$ |           |              |              |
|                  | Radiator coolant  |              |              | $\checkmark$ |           |              |              |
|                  | Hydraulic oil level   |              |              | $\checkmark$ |           |              |              |
|                  | Fuel Level  |              |              | $\checkmark$ |           |              |              |
|                  | Grease all structural joints  |              |              |              |           |              | $\checkmark$ |
|                  | Air Cleaner Choke Indicator   |              |              | $\sqrt{}$    |           |              |              |
|                  | Visi-bowl pre-cleaner   | $\checkmark$ |              |              |           |              |              |
|                  | Air filter primary -outer (by hand tapping- not by pressurized air)                               | $\checkmark$ |              |              |           |              |              |
| First 50 hours   | Engine oil (For G90 Only)   |              | $\checkmark$ |              |           |              |              |
|                  | Engine oil Filter (For G90 Only)  |              | √            |              |           |              |              |
|                  | Transmission oil filter (new transmission)  |              | √            |              |           |              |              |
|                  | Middle & Rear axle-(Planetary oil only  |              | √            |              |           |              |              |
| Every 50 hours   | Water separator   |              |              |              | $\sqrt{}$ |              |              |
|                  | Tire pressure/condition   |              |              | $\sqrt{}$    |           |              |              |
|                  | Brake pedal free play   |              |              | $\checkmark$ |           | $\checkmark$ |              |
|                  | Brake oil level   |              |              | $\checkmark$ |           |              |              |
|                  | Leakage of fuel/engine oil/Hydraulic oil  |              |              | $\checkmark$ |           |              |              |
|                  | Structure nut & bolts   |              |              | $\sqrt{}$    |           | $\checkmark$ |              |
|                  | Wheel nuts torque   |              |              | $\checkmark$ |           | $\checkmark$ |              |
|                  | Propeller shaft greasing  |              |              |              |           |              | $\checkmark$ |
|                  | Parking brake   |              |              | $\sqrt{}$    |           | $\checkmark$ |              |
|                  | Transmission oil level  |              |              | $\sqrt{}$    |           |              |              |
|                  | AC belt tension   |              |              | $\sqrt{}$    |           | $\checkmark$ |              |
|                  | Any damage to air filter housing body/filter mesh/clamps, dust entry in air cleaner to turbo hose |              |              | <b>√</b>     |           |              |              |
|                  | Front axle bearing play   |              |              |              |           | $\checkmark$ |              |
|                  | Fan belt tension  |              |              | $\sqrt{}$    |           |              |              |

| Service interval | Maintenance Requirement                                | Clean        | Change    | Check        | Drain        | Adjust | Grease    |
|------------------|--|--------------|-----------|--------------|--------------|--------|-----------|
| Every 100 hours  | Fresh air filter (HVAC Cabin)                          | $\sqrt{}$    |           |              |              |        |           |
|                  | Recirculation filter (HVAC Cabin)                      | $\sqrt{}$    |           |              |              |        |           |
| Every 250 hours  | Air filter primary – outer (By pressurized air)        | <b>√</b>     |           |              |              |        |           |
| Every 500 hours  | Engine oil   |              | $\sqrt{}$ |              |              |        |           |

|                  | Transmission oil filter                                |              | <b>V</b>  |              |              |        |           |
| Every 2000 hours | Hydraulic oil  |              | $\sqrt{}$ |              |              |        |           |
|                  | Hydraulic suction strainer                             | $\sqrt{}$    |           |              |              |        |           |
|                  | Hydraulic breather                                     |              | $\sqrt{}$ |              |              |        |           |
|                  | Radiator coolant                                       |              | $\sqrt{}$ |              |              |        |           |

Safety element should not be cleaned. For replacement contact nearest Mahindra Construction Equipment dealer.

Primary air filter element should be cleaned at every 10 hours by hand tapping and to be cleaned by pressurized air (below 2kg/cm2) at every 250 hours.
